

CONFORTUM

WATER

AT THE HEART OF YOUR HOME

CONFORTUM, for your whole family... simple, efficient and safe!

Puribec Technologies, leader in commercial, institutional and industrial water treatment solutions, now brings you a disinfection and filtration system for the water at the heart of your home.

Here comes « **CONFORTUM** »

How does it work?

Simple and easy! Water goes through a membrane that captures and eliminates sediments, fine particles and turbidity (cloudy water cause by particles and minerals). When the membrane becomes saturated, **CONFORTUM** initiates an automated cleaning cycle without ever interrupting service.

Also, the system offers a wifi option that allows you to monitor system status and operation parameters to know everything about your water consumption!

Eliminates

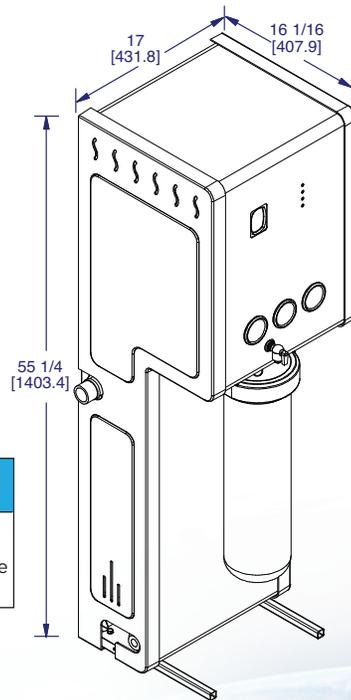

Sediments	Turbidity	Bacteria*	Virus*	Clay	Pollen	Sand
✓	✓	✓	✓	✓	✓	✓

* Guaranteed with the UV option

5 reasons to choose CONFORTUM

- 1** Comfort and safety for the whole family, everywhere in your home.
- 2** Modern and compact aesthetics, made of stainless steel, can be standing alone or wall mounted.
- 3** Pre assembled, ready to use and easy to maintain.
- 4** Improve UV transmittance (UVT) to optimise UV treatment efficiency.
- 5** Environmentally responsible: no chemical rejections.

Integrates a UV disinfection module as an option and benefit from a bacteria free water that meets the requirements of a "Class A" NSF 55.

Membrane	Daily production*	Peak flow	Options	Warranties*
NSF 61	18 927 lpd 5000 gpd	37.8 lpm (10 gpm) 75.7 lpm (20 gpm) (with High Performance System) 25.5 lpm (7.8 gpm) with UV	Ultraviolet lamp NSF Standard 55 - Class A	1 year on parts and labour 2 years on membrane (pro rata)

* Conditions may apply.

Any additional water-related issue?

We have a solution for you! Combine Confortum to a Kinetico water treatment system and bet on whole home water management.
